

13 Appendices

Given below are the appendices that comprise Volume II of the ESIA Study for the proposed 1,050MW Lamu coal fired power plant.

Appendix	Title
1	Marine Thermal Discharge Study
2	Air Quality Study
3	Noise Quality Study
4	Climate Change and GHG Assessment Study
5	Ecological Impact Assessment Study
6	Geology and Soils Study
7	Hydrology Study
8	Hydrogeology Study
9	Social Impact Assessment Study
10	Stakeholder Engagement Plan
11	Grievance Mechanism
12	Cultural Heritage Impact Assessment Study
13	Visual Impact Assessment Study
14	Baseline air, water, soil and sediment sampling and analysis reports and certificates
